

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. GENERAL REVIEW.

WALTER FITCH, ESQ., *President of the Board of Trade of the City of Chicago:*

SIR:—

I have the honor to submit herewith the report of the Board of Trade of the City of Chicago for the year closed on the 31st day of December, 1906.

The receipts of the principal cereals, and of flour in its wheat equivalent, at Chicago, aggregated, during the year, 280,832,207 bushels; the shipments 214,836,298 bushels. The receipts of grain at Chicago aggregated 240,065,226 bushels; at Minneapolis, 120,194,560 bushels; at Milwaukee, 43,421,026 bushels; at St. Louis, 80,271,709 bushels; at Duluth, 60,029,866 bushels; at Kansas City, 60,483,500 bushels; at Toledo, 19,842,140 bushels; and at Omaha, 44,530,300 bushels. Thus it may be seen that Minneapolis stands next to Chicago as a grain market. Chicago as a grain market largely outstrips every other grain market in the world. On page 173 may be found a statement of receipts of grain, and flour in its grain equivalent, at the principal grain centers of the United States, showing a total of 818,590,308 bushels, breaking all previous records.

Our receipts of hogs for the year aggregated 7,808,856 head; of cattle, 3,329,250 head; of sheep, 4,805,449 head. Hog, beef and sheep products, prepared with most scrupulous care under the best sanitary conditions, are shipped from Chicago to the four corners of the earth. The great provision warehouses and abattoirs most cordially invite inspection of their methods in every most minute particular; this position they have always taken and held. Free access to these establishments, whether by U. S. officials or by private citizens, is cordially granted; and not only that, but any suggestions to improve on methods are gladly and gratefully received, since it is the desire of our packers to send to our own and foreign markets American meats in the most attractive form as well as in the sound-

est condition—a healthful and palatable product. The doors of our great provision warehouses are, and always have been, wide open to the public. Uncle Sam, or any member of his large family, has been and is welcome at any time. There was never the slightest reason for secret or indirect investigation. The more thoroughly the methods of these industries are known, the greater will be the demand for American provisions.

The receipts of cattle, calves, hogs, sheep and horses in this market for the year numbered 15,950,001, at a valuation of \$317,-467,535.00. There was a decrease in the receipts of cattle and hogs from those of the year 1905, which was owing, in a large measure, to the sensational campaign of abuse directed against Chicago packing-houses. It is a matter of regret that the demand for a more rigid inspection of meats was not more judiciously urged. An understanding in this regard could easily have been arrived at with advantage to all concerned, instead of, as was the case, in a sensational and most unbusinesslike way, accompanied with serious damage to both our foreign and domestic trade. However, American trade will in the end be benefited and the result of this agitation will inevitably lead to a larger demand for American meats, and give them a wider and better reputation even than before. Indeed, the reaction is already apparent.

The area of the Union Stock Yards, where this stupendous industry is carried on, is 500 acres, 450 of which are bricked. The length of the railway track within the yards is 300 miles; the length of the streets, 25 miles; number of pens, 13,000; number of gates, 25,000; length of electric light wire in service, 50 miles; average depth of six artesian wells, 2,250 feet. The number of animals received at the Union Stock Yards since its establishment forty years ago, is 402,-755,599, valued at \$7,275,807,264.00. The total number handled during this period is 523,920,513. Let us now, as a basis of the provision and live stock trade of this market, consider, though briefly, the sources of supply by which that immense trade is sustained. I refer to the number of animals on the farms of the United States, which on the first of January, 1907, as estimated by the United States Agricultural Department, amounted to 204,131,922 head, valued at \$4,423,697,853.00, comprising milch cows, other cattle, sheep and hogs. The number of hogs raised on the farms was 54,794,439; of sheep, 53,240,282; of milch cows, 20,968,265; of other cattle, 51,565,731; of horses, 19,746,583; of mules, 3,816,692. On pages 195 to 197, inclusive, may be seen

detailed statements of animals on farms and ranches of the United States, by states and territories.

The grain crops of the United States raised during 1906 aggregated 4,839,872,900 bushels, valued on the farms at \$2,057,-159,457; as against 4,517,456,291 bushels, produced during 1905, valued on the farms at \$1,983,918,825.00.

With the exception of the crop of wheat raised in 1901, the crop of 1906 was the largest recorded. Our crop of oats exceeded that of any year in our history. Our crop of rye was the largest ever raised in this country, with the exception of the crop of 1902, which was but very little in excess of the crop of 1906. Our crop of barley materially exceeded that of any other year, and was valued on the farms at \$74,235,997.00, which largely exceeds in value the crop of any other year. The crops of grain produced in the United States during the year 1906 were far in excess of those ever before raised in this country. The acreage devoted to those crops last year was 183,327,839 acres. I refer you to pages 174 to 179, inclusive, for detailed statements of the principal grain crops, with comparisons of crops for several previous years.

No intelligent view of the business and industries of the country can be arrived at without knowledge of its agricultural resources. It is impossible to estimate with anything like correctness the value of railway, bank or manufacturing securities unless the volume and value of our grain crops are ascertained. These constitute the tangible and constantly available assets of the country and set in motion the wheels of industry throughout our vast domain. Let no merchant or manufacturer lose sight of this fact. Let not the government fail to conserve and promote in every possible way the interests of agriculture and of the farmer. There is no department of the government more important than the Agricultural Department. It has brought to the farmer an immense amount of practical and scientific knowledge concerning crops; concerning, for instance, the rotation of crops, the preservation of the vital elements of our soil and the unwisdom of unduly taxing its generating and regenerating powers. It has taught the farmer the wisdom of conserving the resources of the soil, by studying its adaptation to the growth of different grains, grasses and seeds. It has taught him to manage his lands with, I may say, kindness and intelligence, not to overtax or impose upon them, or put them to raising crops for which they are not specially adapted. The

farmer should not be prodigal of the wealth which an indulgent and munificent nature has bestowed upon him. If those lessons are heeded our magnificent agricultural regions will be equal to the increasing demands, which will inevitably confront us—demands from a rapidly augmenting population within our own borders, and from markets across the seas.

Following may be found statements showing condition of farm animals on April 1, 1907, furnished by the United States Department of Animal Industry:

MARCH GRAIN REPORT

The Crop Reporting Board of the Bureau of Statistics of the Department of Agriculture, from the reports of the correspondents and agents of the Bureau, finds the amount of wheat remaining in farmers' hands on March 1 to have been about 206,644,000 bushels, or 28.1 per cent of last year's crop, as compared with 158,403,000 bushels, or 22.9 per cent of the crop of 1905, on hand on March 1, 1906, and 20.1 per cent of the crop of 1904, on hand at the corresponding date in 1905.

The corn in farmers' hands is estimated at about 1,298,000,000 bushels, or 44.3 per cent of last year's crop, against 1,108,000,000 bushels, or 40.9 per cent of the crop of 1905, on hand March 1, 1906, and 38.7 per cent of the crop of 1904, on hand at the corresponding date in 1905.

Of oats there are reported to be about 384,461,000 bushels, or 39.8 per cent of last year's crop, still in farmers' hands, as compared with 379,805,000 bushels, or 39.8 per cent of the crop of 1905, on hand on March 1, 1906, and 38.8 per cent of the crop of 1904, on hand at the corresponding date in 1905.

The accompanying table shows the percentages of last year's crops of wheat, corn and oats on hand on March 1, 1907, by states.

CHICAGO

The population of Chicago is estimated at 2,396,541; her area at 122,008.32 acres, or 190,638 square miles; her park area at 3,179.79 acres. The number of buildings erected during the year is 10,629, valued at \$64 822,030. The death rate per 1,000 of our population for the year 1906 was 14.18; of Buffalo, 14.14; of Cleveland, 14.60; of St. Louis, 15.09; of San Francisco, 15.35; of Cincinnati, 17.20; of Philadelphia, 17.25; of New York, 18.31; of Boston, 18.49; of Baltimore, 19.44; of Pittsburgh, 19.60. The number of arrivals at this port of all kinds of craft during the year 1906 was 7,017 and the number of clearings, 7,056. The total number of pupils enrolled in our public schools during the school year was 272,086—136,730 males and 135,356 females; the average daily attendance, 230,330; total number of teachers, 5,808; total number of school rooms, 5,179.

The assessed valuation of property for tax purposes is 20 per cent of the assessed actual valuation and is classified as follows: real estate, \$303,033,228; personal property, \$89,370,292; capital stock, \$11,882,451; railroad, \$21,977,325; total \$426,263,296. The bonded indebtedness of the city amounts to \$25,555,000, the annual interest on which amounted in 1906 to \$1,012,147.50. The total number of police officers of all ranks is 3,578, or 18.7 to each square mile. The number of uniformed fireman, 1,545 and the total number of employes in the fire department, 1,615; number of engine companies, 108; number of hook and ladder companies, 31. The total mileage of streets, improved and unimproved, is 4,226.78; of streets, 2,835.08; of alleys, 1,391.70. On page 163 of this report may be found a statement showing taxes, personal property, real estate, rate of taxation, total tax levied and bonded debt for a series of years. The average rate of taxation for 1906 was 6.6746, and the total amount of taxes levied \$28,451,436.78.

The clearings by the Associated Banks of Chicago amounted, during 1906, to \$11,047,311,894.50, and balances to \$735,239,-699.40; and the clearings by the Clearing House of the Board of Trade of the City of Chicago, \$56,794,345.50, and balances, \$19,369,-168.01.

The receipts of grain in this market, and of flour in its wheat equivalent, during the year 1906, reached a total, as elsewhere stated, of 280,832,207 bushels, and shipments 214,836,298 bushels. The number of bushels of wheat received during the year aggregated 28,249,475 bushels, as against 26,899,012 bushels received during the year 1905; 24,457,347 bushels received during 1904 and

27,124,585 bushels received during 1903. Of the quantity of wheat shipped during the year, 9,138,655 bushels went by lake and 16,788,573 bushels by rail. Of the shipments by lake, by far the greater part was consigned to Buffalo for distribution and export, that port being almost exclusively a port of grain rendezvous, and not to any important extent a port of ultimate destination, but merely an elevator and reloading center, or a port en route.

The number of cars of grain inspected in this market during the year was 181,008, and the number of bushels inspected, received in bulk by water, was 467,497 bushels, as compared with 197,297 cars, and 700,259 bushels, respectively, during the preceding year.

The number of bushels of grain weighed by the Board of Trade weighmaster during the year was about 405,000,000 bushels, and the number of cars weighed 303,624.

The number of bushels of corn received aggregated 98,896,563 bushels, as against 110,823,444 bushels received during 1905, and 100,543,207 received during 1904.

The Chicago railroads that run into the largest corn producing regions are the Illinois Central Railroad, the North-Western Railway, the Chicago, Burlington & Quincy Railway, the Chicago, Rock Island & Pacific Railway, the Chicago, Milwaukee & St. Paul Railway, the Chicago & Alton Railway and the Chicago & Eastern Illinois Railway. On page 10 may be seen statements showing both receipts and shipments by routes and by months. The number of bushels of corn shipped from Chicago during the year aggregated 78,974,686 bushels, 24,704,564 bushels of which were shipped by the great lakes and 32,154,544 bushels by eastern trunk lines. The quantity shipped during the year 1905 aggregated 91,153,342 bushels and during the year 1904, 75,184,758 bushels. Our receipts of oats during the year aggregated 89,912,881 bushels, as against 92,486,761 bushels received during 1905 and 73,023,119 bushels during the year 1904 and 88,588,386 bushels received during the year 1903. Chicago is by far the largest corn and oat market in the world. The quantity of oats shipped during the year amounted to 73,718,199 bushels, as against 66,131,725 bushels shipped during the year 1905 and 47,303,901 bushels shipped during 1904 and 63,539,179 bushels during 1903. The receipts of barley during the year aggregated 20,811,432 bushels, as against 28,074,142 bushels received during the year 1905, 25,316,917 bushels received during 1904 and 23,273,519 bushels received during 1903. The shipments of barley aggregated 6,924,357 bushels, as against 7,374,037 bushels shipped during the year 1905, 5,802,856 bushels shipped during 1904 and 2,986,816 bushels shipped during 1903.

On page 16 may be found a detailed statement showing receipts and shipments by months, and also giving the names of the railway lines over which received and over which shipped. There were shipped from Chicago, via the great lakes, during the year 786,021 bushels, and on eastern railway lines 5,404,461 bushels. The receipts of flaxseed during the year aggregated 2,086,295 bushels and shipments 435,171 bushels. Trade in this article has moved to more northerly markets, near to virgin territory, which to a considerable extent is devoted to the cultivation of flax.

The receipts of grass seeds during the year, comprising timothy, clover, millet, Hungarian, etc., aggregated 62,729,160 pounds, as against 78,589,943 pounds received during 1905; 88,722,987 pounds received during 1904; 78,381,648 pounds received during 1903 and 71,093,567 pounds received during 1902. The shipments of such seeds during the year aggregated 61,683,329 pounds; of those shipments 50,492,686 pounds were carried by eastern trunk lines, and 7,337,441 pounds on the great lakes. The business heretofore shared in by many firms has become to a large extent centralized, and is handled in the main by few concerns; it is carried on to a considerable extent by shipping direct from regions of production, or from points in close proximity to such regions, to eastern terminals. Whether the business as now conducted is more advantageous to the grower and the western local dealers is somewhat doubtful. It has almost eliminated competition from that field of industry in this market. It is an evolution in market conditions, the results of which are specially satisfactory to those by whose skill and industry it has been brought about. I speak of it here as explanatory, and not censoriously. The laws that govern such adjustments in the commercial world are inexorable and must be recognized. Mere theory and a studied adherence to old methods in the commercial world, must in all cases give way to actual results.

It is worse than useless to rail at those who have supplanted the "old" by the "new"; the part of wisdom is to conform to irrevocable changes or to abandon the contest. We see men who refuse to accept new and established conditions in trade, and are wearing themselves out in finding fault with those who have been intelligent and strong enough to grasp the new situation and conform to the inevitable.

The men of business to-day are alert, and quick to see changes that are being wrought in the race for trade; they discard old plans and sell all their old machinery or throw it away. They

lose no time in clinging to the past under such circumstances, and in decrying those who are forging ahead. Chicago isn't looking behind; she is resolutely and buoyantly facing the present and the future. A new day is dawning upon her commercial and municipal life.

The number of hogs received in Chicago during the year aggregated 7,808,856, including the number received in yards located outside of the Union Stock Yards. The number of hogs shipped during the year was 1,742,606. The number used for city consumption and packing was 6,076,957. On page 40 may be found a complete statement showing the receipts and shipments of hogs during the year, the lines of railway over which received and over which shipped, and also showing the receipts by months.

The number of sheep received in this market during the year aggregated 4,805,449, as against 4,736,558 received during 1905; the number shipped during the year was 1,341,273, as against 1,355,865 shipped during the year 1905. The number of sheep used for city consumption and packing during the year, was 3,464,176. I refer to page 41 for detailed statements of receipts and shipment of sheep during the year.

The receipts of cattle during the year aggregated 3,329,250 head, as against 3,410,469 head received during the preceeding year; the shipments for the year aggregated 1,352,998 head, as against 1,410,213 head shipped during the year 1905 and 1,326,332 head shipped during the year 1904.

The valuation of live stock received in this market during the year amounted to \$317,467,535, as against \$300,472,480, the valuation of live stock received during 1905. The valuation of the receipts of cattle for 1906 amounted to \$163,670,389, and of calves \$4,520,130. I refer to page 48 for statement of prices of cattle, hogs and sheep for each week during the year 1906.

The receipts of dressed beef during the year aggregated 353,286,580 pounds, as against 360,773,876 pounds received during the year 1905, 208,204,901 pounds received during 1904, 199,-

537,879 pounds received during 1903 and 135,372,268 pounds received during 1902. The shipments during the year aggregated 1,138,072,285 pounds, as against 1,110,371,601 pounds shipped during the year 1905, 1,072,156,300 pounds shipped during the year 1904 and 1,252,233,792 pounds shipped during 1903. Trade in dressed beef is remarkable not only for its volume, but for its steadiness. There is a noticeable and suggestive uniformity in the volume of its monthly shipments, indicating the substantial satisfaction afforded by our dressed beef, both in foreign and domestic markets, from which it may be inferred that it has successfully stood the severe tests, official and otherwise, to which it has been subjected, and that the criticism of it was, to a large extent, ill-considered, sensational and unjust.

I would refer you to page 42 of the statistical portion of this volume for detailed information concerning receipts and shipments of dressed beef, by months; and also showing the railway lines over which received and those over which shipped. It will be observed that 1,037,057,748 pounds were shipped by the eastern railway lines during the year.

The great bulk of the receipts came in on the Chicago & North-Western Railway and the Chicago, Milwaukee & St. Paul Railway; the bulk of the quantity shipped was transported on eastern lines. Of the quantity shipped, 222,722,429 pounds went out on eastern railway lines. You are referred to page 100 of this report for statements giving the names of the railways over which received and the quantity received on each line, also the names of lines of railway over which shipped, with the quantity taken by each line. A statement also on the same page may be seen showing the quantity shipped during each month of the year.

The Secretary of Agriculture in his admirable report estimated the value of our farm products for the year at \$6,794,000,000, this being \$485,000,000 above the value of such products for 1905, \$635,000,000 above that of 1904, \$877,000,000 above that of 1903, and \$2,077,000,000 above that of 1899. The value of farm products of 1906 was 8 per cent greater than that of 1905, 10 per cent greater than that of 1904, 15 per cent greater than that of 1903 and 44 per cent greater than that of 1899.

Corn is by far the most valuable crop. The value of this crop on the farm is estimated upon a conservative basis, at \$1,166,626,479 for 2,927,416,091 bushels. Iowa produced 373,275,000 bushels; Illinois 347,169,580 bushels, but the farm value of the Illinois crop exceeded that of Iowa by more than \$5,500,000; Nebraska raised 249,782,500 bushels, valued at \$72,436,925; next in order came Missouri with 228,522,500 bushels, valued at \$86,838,550. Next in value follows the cotton crop, although it is only three-fifths the value of the corn crop. In Texas alone, says the Secretary of Agriculture, this crop is greater than that of

British India; nearly three times that of Egypt, and is one-half as much as the crop of the world, outside of the United States, India and Egypt.

The products of our farms contribute to our national wealth a sum that is absolutely incalculable; the amount of \$6,794,000,000, representing merely the estimated value on the farms of our farm products, is but a small fraction of the wealth that is poured into the lap of the nation, directly and indirectly, from our agricultural resources. Every movement from the planting of the seed helps to set in motion, and to keep in harmonious activity every industry throughout the length and breadth of our land. These industries, great and small, are so many agencies engaged in distributing, in countless forms, the wealth resulting from our immense crops.

This is not all. Our vast trade in meats and in live stock reaching out into every portion of the world, imparts its vitalizing force to our varied mercantile, industrial and financial activities all along the wonderful pathway of commerce from prairie to port.

Respectfully submitted,

GEORGE F. STONE, Secretary.

NOTE—The Board of Trade Bonds amounting to \$30,200.00, par value, held by the Board at the beginning of the year 1906, together with Board of Trade Bonds to the value of \$11,500.00, purchased during this year have been canceled, leaving the bonded indebtedness of the Board of Trade of the City of Chicago at the close of the year 1906, \$1,198,300.00. Moneys amounting to \$16,803.20 stand to the credit of the Board of Trade on the books of the Telegraph Companies.

To the President and Board of Directors of the Board of Trade of the City of Chicago:

GENTLEMEN:—In accordance with the instructions of the Finance Committee, we have completed a careful audit of the Financial Records of the Board of Trade of the City of Chicago, covering the period from January 8, 1906, to January 7, 1907. All the records in the cash book, journal and ledger were proven correct. The cash balances as shown in the hands of your Secretary and Treasurer were checked and proven correct. Vouchers were

presented for all cash payments properly approved by the Finance and Real Estate Committees. We also certify that the foregoing Report is correct in accordance with the records audited.

Respectfully submitted,

EVERETT AUDIT CO.,

January 10, 1907.

by Eric J. Everett.

The item of \$37,171.23 appearing in the report as received from the Quotation Department does not include \$2,500 for the month of December, 1906, received after the close of the fiscal year ended January 7, 1907.

The amount received from rentals, janitor service and electric lights was \$137,325.69, as against \$134,539.37 received during the preceding fiscal year, and \$135,539.48 during the fiscal year ended January 9, 1905, and \$133,319.09 received during the fiscal year ended January 4, 1904, and \$129,253.59 received during the fiscal year ended January 5, 1903.

The pro rata amount assessed by the Board of Directors to meet the expenditures of the Association for the ensuing year is \$75.00.

The membership of the Board on the 7th day of January, 1907, numbered 1727, being 48 less than on the corresponding date of the previous year.

There were 44 memberships retired during the year, under the provisions of Section 30 of Rule IV of the Rules of the Board, and the amount paid to retiring members was \$116,500, or an average, in round numbers, of \$2,650 per membership. The provisions of Section 30 of Rule IV of the Rules of the Board are no longer in force as they applied only to the years 1904, 1905 and 1906.

At the close of the year there were no bills outstanding. Cash on hand, exclusive of \$16,803.20 standing to the credit of the Board on the books of the telegraph companies, was \$90,560.79. At the close of the year ended on January 4, 1904, the amount of cash on hand was \$47,274.71; on January 5, 1903, \$19,411.82; and on January 6, 1902, \$10,815.04.

The bonded indebtedness of the Board is \$1,198,300.00, maturing 1927, bearing 4 per cent. interest, payable on the first day of June and the first day of December of each year.

REAL ESTATE

Disbursements on real estate account, exclusive of construction, interest and insurance, amounted to \$63,593.24, as against \$57,179.76 expended during the fiscal year ended January 8,

1906; \$59,637.08 expended during the fiscal year ended January 9, 1905, and \$66,047 43 during the fiscal year ended January 4, 1904.

The amount expended for construction during the year last past was \$24,514.12.

It was necessary to purchase a new engine and dynamo, as the old engine and dynamo were not sufficient to supply the electricity demanded to meet the requirements of the building.

Three Mabbs Electric Elevators, to take the place of the Otis Elevators, were installed during the year.

An examination of the skylight above the exchange room disclosed the fact that it was in a dangerous condition. It was repaired at a cost of \$2,640.

The Transportation Department has satisfactorily consummated several projects that were initiated last year; others of an equally meritorious character are being urged and are in process of accomplishment. We doubt not that these will in due time result to the advantage of the general interests of the Association.

Questions that appertain to that Department, such as rates of freight, unjust discriminations, etc., may be freely submitted by the members to the Manager, Mr. Boyd, at his office, No. 41 Board of Trade Building.

LEGAL DEPARTMENT

At the close of last year there were pending six suits brought by the Board against purloiners of its quotations. One of these, against the O'Dell Stock and Grain Company and others of Cincinnati, is still pending; a temporary injunction has been issued therein. Two at St. Louis and one each at Detroit, Chicago and Minneapolis, have been disposed of by final decrees in favor of the Board, which permanently enjoin the purloining of quotations. These cases add to the list of those permanently enjoined from using our quotations the following persons:

Adler, Samuel W.	Donovan Commission Co.	Murray, Wilbur W.
Branston, Willis S.	Edwards, Wood & Co.	Nicholson, Charles
Consolidated Stock Exchange of Buffalo	Farrell, Harry	Reed, H. G.
Cella Commission Co.	Garrey, Frank H.	Reeves, Ernest
Cella, Louis A.	Hammond Elevator Co.	Sinclair, Edward E.
Cullen, Chas. A.	Hayes, Joseph	Tilles, Cap A.
Cullen, James H.	Lang, Charles L.	Williams, Chas. R.
Courbney, Charles	Lee, Charles	Wood, George W.
Cameron, Frank A.	Low, Joseph M.	Wood, Lewin A.
Copus, Harry	Mains, E. P.	Young, George E.

Since the decision of the United States Supreme Court has put the Board in a position to readily obtain injunctions against any person found using its quotations without its sanction, the bucket-shops instead of posting the quotations as those of this Board, have, as a rule, resorted to a trick or device of counterfeiting them. In one case, that of the O'Dell Stock & Grain Company at Cincinnati, our quotations are surreptitiously obtained and are increased by a uniform fraction, usually one-eighth or one-quarter of a cent on grain, and then are transmitted to their customers as the quotations of the O'Dell Stock & Grain Co. Contempt proceedings have been instituted by the Board against this company and its officers upon the ground that this is a violation of our injunction. Much evidence has been taken on this question, and the case is now ripe for argument. It is expected that a favorable decision will soon be obtained, which will stop this illegal practice.

Other bucket-shops are evading the injunctions in favor of this Board in substantially the same way, except that they add the uniform fraction through the instrumentality of a so-called exchange, which is maintained for this purpose, and where fictitious trading is carried on in order to give a basis for the quotations thus made and sent out. This counterfeiting of quotations is done through the Superior Board of Trade at Superior, Wisconsin, and the National Board of Trade at Kansas City.

Suits have been commenced in the Federal Courts by this Board against each of these organizations and parties assisting them in this fraudulent practice. In the Superior case much evidence has already been taken. It is confidently expected that as a result of these suits the property right of this Board in its quotations can be effectually protected, not only against direct purloining thereof as heretofore, but against this new plan of counterfeiting, which is as much an infringement of the Board's property right in its quotations as the direct purloining and posting thereof are. It is believed that when this counterfeiting shall be stopped the bucket-shops will have exhausted all methods they can devise for getting the benefit of our quotations.

During the year a suit has also been instituted at Kansas City against the McDermott Commission Company and others. The lower court decided in favor of the Board, and the defendants appealed. Upon the appeal the Circuit Court of Appeals at St. Paul rendered a decision emphasizing and broadening the right of the Board to protect its quotations by injunction. A final decree will soon be entered in this case.

Of the five creditors bills pending at the end of last year against this Board and members to collect debts against certain members by a sale of their memberships, three have, during the year, been disposed of in favor of the Board, and two are still pending. A suit of the same nature—that of Arthur Hugunin vs. Fred Dresler and Board of Trade, has also been commenced during the year and is still pending.

A suit brought by Charles Waite against former directors for damages by reason of the action of the Board in disciplining him, has been dismissed. A similar action brought by Robert H. Thorburn, is still pending, but will have the same conclusion.

A suit brought by Emma Taylor against the Board and others for damages for alleged malicious prosecution in a criminal suit, is still pending.

During the year the appeals of William E. Dodson and Louis G. Bostedo, in suits in which they sought to enjoin the Board from disciplining them or sought reinstatement, have been decided by the Appellate Court in favor of the Board. These decisions materially strengthen the disciplinary power of the Board. Dodson appealed his case to the Supreme Court, which Court also rendered a decision in favor of the Board. Another membership suit by William E. McHenry is still pending on appeal in the Appellate Court.

Harry Berger, a member, at the time of the passage of the amendment to Rule IV of the Board, prohibiting members from trading in other markets where the basis of the deliveries was Chicago warehouse receipts, filed two suits in the Federal Court at Chicago, one to enjoin the submission of such amendment to a vote, and the other to enjoin the enforcement of the new rule against him. Both suits were decided in favor of the Board.

At no time in a number of years has the number of pending suits been so small as now.

The amount expended by this Board during the year in its bucket shop litigation for legal services and other expenses, after deducting the amount collected by the Board as costs in such litigation, is \$8,386.34.

NOTE.—Prior to the year 1820 no official records of the arrival of alien passengers were kept. It is estimated, however, that the total number arriving in the United States from the foundation of the government to the year 1820 was 250,000.

Up to the year 1856 no record was kept of immigrants in distinction from the arrival of alien passengers.

Of the number of immigrants arrived during the year ended June 30, 1906, there came from
 Un'd Kingdom 103,193 Norway..... 21,730 China..... 1,544 Aus. Hungary. 265,138
 Germany..... 37,564 Italy..... 273,120 Russia..... 215,665 Sweden..... 23,310

The total number of European immigrants for the last fiscal year was 1,018,865.

Of the total number of immigrants for the year, 764,463 were males and 336,272 were females.

The year ended June 30, 1906, has been the year of the greatest immigration.

Owing to the absence of law for the collection of statistics in relation to immigrants by railroads, those from the British North American possessions and from Mexico were not included from July 1, 1885, to June 30, 1895.

NOTE.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857, inclusive, a few counties returned only the aggregates; hence the details of real estate and personal property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law. Since 1868 the valuations are as equalized. The total valuations in each of the several years are correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1874 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, especially those of railroad property.

The valuations for 1899 and subsequent years are the one-fifth of the full fair cash valuations of property as determined by the Assessing officers, under the requirements of the Assessment Act of 1898.

The State debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869; in 1869 and 1870, as it stood December 1; in 1871, as it stood December 31; from 1872 to 1879, as it stood December 1.

SECTION 1. A. Members may act as brokers between other members only, except in making contracts between members of this Association and authorized agents of transportation companies, vessel owners, railroad, insurance or banking companies in connection with the ordinary legitimate business of the latter, but in all cases the agent or broker of such person, firm or corporation, shall be held liable both for the acceptance of contracts by alleged principals and for the faithful execution of the same, under the rules of the Association, by such principal. SECTION 4. A. The following rates of commission, being just and reasonable, are hereby established as the minimum charge that shall be made by members of this Association for the transaction of the business specified in this section:

B. For the purchase, or for the sale, or for the purchase and sale, by *grade alone*, of wheat, corn or oats, to be delivered in store, either for immediate or for future delivery, one-eighth of one cent per bushel.

F. For the purchase, or for the sale, or for the purchase and sale of D. S. short ribs or D. S. extra short clears, twenty-five cents per 1,000 pounds.

G. It is hereby provided that upon transactions specified in the foregoing paragraphs of this section which are made for the account of members of this Association, or for firms one of whose general partners is a member, or for corporations entitled under Section 8 of this rule to members' rates, one-half of the foregoing minimum specified rates shall be charged and shall be the minimum rates in such cases.

H. It is further provided that to members who personally do their own buying and selling, but who clear their trades through other members, the minimum rates of commission on all transactions opened and closed *within ten days* shall be twenty-five cents per 1000 bushels of grain, one cent per package of pork, three dollars per lot of 250 tierces of lard, and five cents per 1000 pounds of D. S. short ribs or D. S. short clears.

It is further provided that the minimum rates of commission on all such trades *as are not actually closed within the prescribed limit of ten days*, shall be members' rates; but the clearing member may pay the principal the rates of brokerage prescribed in Section 2 of this Rule, as compensation for executing such trades. It is expressly understood that all such transactions shall be for the personal account of the member, firm or corporation for whom the trades are cleared, and in no case, directly or indirectly, on behalf of any other person, either wholly or in part.

If a broker is employed to execute any portion of such trades, the party employing such broker shall pay the brokerage thus incurred, the minimum rates for such service being those prescribed in Section 2 of this Rule.

Hence, on trades made in wheat, corn or oats, whether opened and closed within 10 days or not, the principal shall pay the clearing member (per 5000 lot) **\$3.12½**

The same principle shall apply in construing commission rates to be charged for executing similar transactions in all other commodities dealt in under the rules of this association.

K. Members cannot clear through other members as contemplated in paragraphs H and J any trade that is not for their own account; but members receiving orders may execute them and turn over any resulting trades, with the name of the customer, to other members, in which case the latter shall pay the former the minimum brokerage rates as compensation for executing the order.

It is hereby provided that upon transactions specified in the foregoing paragraphs of this section which are made for the account of members of this Association, or for firms one at least of whose general partners is a member of this Association, or for corporations entitled under Section 8 of this Rule to members' rates, one-half of the foregoing rates shall be the minimum rates charged.

F. Whenever members of this Association, acting as principals or agents, shall have made a purchase of any of the property mentioned in this section, to arrive, or in transit, such members shall notify in writing, the party from whom such purchase was made, of the price and terms of such purchase on the same day upon which the transaction takes place.

These requirements shall apply only to shipments from country points, either to Chicago or to other markets, if purchased in Chicago market, whether such property is to be shipped or is in transit.

BUYING OR SELLING VESSEL LOTS.

SECTION 6. A. The following rates of commission, being just and reasonable, are hereby established for receiving and selling, or for buying and shipping the following described property by vessels:
 On wheat, rye, barley or flaxseed.....½¢ per bushel
 On corn or oats.....½¢ " "

These shall be the minimum rates for both members and non-members.

ADDITIONAL CHARGES.

SECTION 7. A. In addition to all the rates of commission prescribed by this rule, there shall be charged all legitimate expenses incurred in handling and caring for the property involved, including storage, insurance, inspection, weighing. Cost of sampling shall not be considered a charge against the property.

CORPORATIONS.

SECTION 8. A. Any corporation having for one of its executive officers and stockholders a member of this Board, may submit to the Board of Directors, or a committee appointed for such purpose, a full disclosure of the relations of such member to such corporation, and if such member shall, upon investigation, be found to be a real bona fide and substantial executive officer and stockholder of such corporation, and that such relation is not created for the sole purpose of obtaining members' rates, such corporation shall be thereafter, and so long as such member shall remain such officer and stockholder, entitled to members' rates provided in this rule; provided, that for the purpose of this rule, not more than one corporation can be represented by the same member of this Association as its executive officer.

Whenever any such corporation shall be so found entitled to members' rates, it shall, whenever requested by the Board of Directors, or such committee, make a full disclosure of the then existing relations of such member to such corporation. If it shall refuse so to do, its right to members' rates shall thereupon cease.

B. On all transactions for the account of any officer, agent, employe, or stockholder of any such corporation, not a member of this Association, such corporation must exact non-members' rates of commissions.

C. No member can be deemed the representative of two corporations, or two firms, or a firm and a corporation, for the purpose of giving either firm or corporation members' rates under this rule.

CONSTRUCTIONS.

SECTION 9. A. On all transactions where the purchase or sale of cash grain is made contingent on the price ruling for future delivery, and where the purchase or sale of the future delivery is at once accomplished, fixing by such transaction the value of the cash

grain so bought or sold, it shall be construed that the purchase or sale of the future delivery shall be a part of the cash transaction. Should the purchase or sale of grain for future delivery upon which the cash transaction is based be held subject to the convenience or subject to the orders of the parties with whom such transaction is made, then all such business for future delivery shall be subject to the regular rates of commission as prescribed in this rule.

B. In no case shall the aggregate amount of brokerage allowed on any transaction be such that the net commission to members on such transaction shall be less than the minimum rates prescribed in Paragraph H, Section 4 of this rule, for clearing trades for members.

C. Members cannot abate or divide with other members the rates prescribed in Paragraph H, Section 4 of this rule, for clearing.

D. A firm whose only member of the Association is a special partner in such firm is not entitled to members' rates.

E. A firm or a corporation shall charge regular rates of commission on all transactions in which only a part of such firm or corporation appears as a principal.

F. Free telegraphic communication, however, shall not be construed as a violation of this rule.

G. The Board of Directors is authorized to offer a reward of not more than twenty-five hundred dollars to any person who shall furnish evidence that does convict any member, firm or corporation of a violation of this rule.

All contracts and offers to contract for grain for future delivery shall be at one figure of price, having as the multiple of price one-eighth of a cent per bushel; provided, however, that offers and contracts may be made to include one-half the total amount of each contract at any given price, and the remainder of said contract at a price one-eighth of one cent per bushel higher or lower than the other moiety and not otherwise; the same principle to apply on transactions for the future delivery of provisions; and every infraction of this rule shall be deemed misconduct and punishable by suspension at the discretion of the Board of Directors. Failure to adjust contracts. In case any member neglects or refuses to indorse a certificate of deposit to the party entitled to receive the money thereupon when all contracts upon which the deposit is applicable are settled, and all money due upon such contracts has been paid, he shall be liable to a penalty of one per cent. per day on the amount of such certificates, for every day such refusal or neglect is continued; and for refusal to promptly pay such penalty, the party may, upon due complaint, be suspended from all privileges of the Board until the same is paid.

SEC. 7. In determining the value of property under this Rule, its value in other markets, or for manufacturing or consumptive purposes in this market, together with such other facts as may justly enter in the determination of its value, shall be considered irrespective of any fictitious price it may at the time be selling for in this market. Such value, for the purposes of this Rule, in case of disagreement, shall be determined by the Board of Directors, and communicated to the parties in interest through the President or Secretary.

“off grades.”**

And furthermore, the proprietors or managers of such warehouse shall be required to sell their regular contract grades of grain or flax seed in the Chicago market only, and shall not ship any grain from any regular warehouse, of which they are proprietors or managers, except those grades which are denominated and understood to be “off grades”; *provided*, however, that the Board of Directors of the Board of Trade may, upon application, grant to such elevator proprietors or managers the privilege of shipping such quantity of grain from their elevators as will sufficiently relieve such elevators from being overloaded, or as will maintain the condition of such grain; and furthermore, the proprietors or managers of such warehouse shall be prohibited from buying grain at any non-competing points.

**Requirement
for removal of
grain from
warehouses
applied to be
regular.**

Whenever application shall be made by the proprietors or managers of any warehouse to have the same declared a regular warehouse for the storage of grain and flaxseed under the provisions of this Rule (except in cases of renewal on the first day of July in each year, as hereinbefore provided) any grain or flaxseed that may be contained in said warehouse at the time of such application, shall be required to be removed from said warehouse, when after it shall have been graded and inspected according to its quality and condition then existing by the duly constituted authorities, such grain or flaxseed may then again be received into said warehouse and receipts issued therefor shall be registered and dated upon the day when such grain or flaxseed is again actually received into said warehouse.

**Supervising
Inspector.**

The chief inspector of grain of the State of Illinois may, upon request of the Board of Directors of the Board of Trade, appoint a

supervising inspector who shall so supervise the storage and distribution of grain and of flax seed in such warehouse that no discrimination or selection can be made in the quality or grade of grain or flax seed in the delivery of such grain or flax seed.

Warehouse receipts issued by warehouses so declared regular by the Board of Directors shall be regular for delivery on contracts under the Rules of the Board of Trade so long as the said warehouse shall continue to be a regular warehouse, but the term for which any warehouse is declared a regular warehouse to issue such receipts shall be limited to and expire on the first day of July in each year. No receipts issued on grain received in any warehouse shall be regular for delivery under the Rules of the Board of Trade after that date unless the warehouse upon which it has been issued has again been declared a regular warehouse by the Board of Directors; *provided*, however, that receipts issued before the first day of July by warehouses which have been regular warehouses during the preceding year, but which have not been declared regular for the succeeding year, shall be regular for delivery upon such contracts for six months after the first day of July; but nothing contained herein shall prevent the Board of Directors from declaring any warehouse, or the receipts thereof, irregular at any time for violation or non-compliance with the laws of the State of Illinois or any of the Rules of the Board of Trade or of the Regulations and Requirements of the Board of Directors.

Life of warehouse receipts.

Provided, that the Board of Directors shall have power, when in their judgment an emergency exists requiring more storage room than can be supplied by the regular elevator warehouses, to declare any storehouses, vessels, or places suitable for the storage of grain or flax seed within the city limits—wherein the cost of delivery to vessels or railroad cars shall not be greater than such as is made by the regular elevators for the same service—to be regular places for the storage of grain deliverable under the Rules of the Board of Trade.

Emergency clause.

And *provided further*, that in case it shall happen that at any time there shall be no warehouses which shall be regular warehouses for the storage of grain and flax seed, then the Board of Directors may declare any warehouses suitable for the storage of grain or flaxseed, whose aggregate capacity shall not exceed twenty-five million (25,000,000) bushels, regular warehouses for the storage of grain or flax seed, upon such terms and for such period as the Board of Directors in its discretion may deem necessary or proper, and the warehouse receipts issued by warehouses so declared regular under this proviso, shall be regular for delivery on contracts under the Rules of the Board of Trade, in the same manner as if issued by warehouses declared regular under the foregoing provisions of this section in regard to declaring warehouses regular for the term ending on the first day of July in each year.

Limitation of aggregate capacity of warehouses made regular under emergency.

All complaints against elevator proprietors under this section shall be heard and decided by the Board of Directors of the Board of Trade of the City of Chicago.

of business of its issuer. Such notice shall state in detail the warehouse receipts proposed to be delivered, and in the case of provisions in packages, or lard, the packer's brand, and the contract price on which delivery is proposed to be made, also the net cash value (deducting extra storage) of said property at the market price. At a stated hour each day it shall be the duty of the Secretary to post or cause to be posted, in a suitable place, the market price of such grain or provisions as are deliverable on time contracts. Such delivery notice may be passed from one purchaser to another, before 2 o'clock P. M., by indorsement thereon, by the seller, of the name of the party to whom it is to be delivered, together with the contract price at which the property is sold, and also the time at which the delivery is made. The first delivery of such notice shall be made before 1:35 o'clock P. M., and any party holding such notice longer than five minutes, as shown by the indorsements on same of the time of the previous delivery, shall not be permitted to deliver it. Any person indorsing upon said notices any fictitious name or the name of any person, firm or corporation other than that of the person, firm or corporation to whom he tenders the notice upon a bona fide sale of the property mentioned therein actually made by himself or the firm or corporation he represents or upon the written order of another member, firm or corporation on whose behalf he makes such tender, or who shall make any alteration therein or any substitution of property other than that originally named in the notice by the original issuer thereof, shall be deemed guilty of gross fraud, and, if a member, he shall be suspended or expelled, at the discretion of the Board of Directors, and if not a member, such person shall forever thereafter be excluded from the Exchange hall, delivery and settlement rooms of the Association. All delivery notices issued under this Rule shall be consecutively numbered by the parties issuing them. Notice of readiness to deliver property as herein provided, and all subsequent transfers of such notices, shall be deemed and held to be a valid and sufficient tender of property, on time contracts, under the Rules of this Board of Trade, provided the property is actually delivered, or is shown to have been ready for delivery, in the manner and upon the terms herein provided. It shall be the duty of the party regularly holding such notice at 2 o'clock P. M., to present the same at the office of its issuer before 2:30 o'clock P. M., of the same day, together with a certified check on some Chicago bank,

in good standing, or other satisfactory payment for the net amount due for the property represented by said notice at the market price; and upon tendering said notice, with payment, at the office of its issuer, the holder of said notice shall be entitled to receive the property represented by same. All differences due from or to parties to such delivery shall be paid upon the basis of a full delivery, and no more, and each purchaser receiving notice of delivery shall be responsible to the seller from whom the notice was received for the difference between the price actually paid for the property and their contract price. In cases where the seller's contract price is less than the price actually paid for the property, such seller shall be responsible to the purchaser to whom he delivered the notice, for the difference. All such differences shall be due and payable immediately upon the delivery and payment for the actual property; it being the duty of each person transferring the delivery notice to ascertain what price was actually paid for the property.

On the first business day of each month all deliveries on time contracts of the kinds of property mentioned in this section, if delivered before 11 o'clock A. M., shall be delivered in the Exchange hall, or such other place as may be designated by the Board of Directors, between the hours of 8:30 and 9:15 o'clock A. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified for similar deliveries after 11 o'clock. The delivery notice shall be of the same form and character in all respects as that prescribed for deliveries between 1:30 and 2 o'clock, except that it shall state the net value (deducting extra storage) of the property at the closing market price on the last business day of the previous month, for the delivery on which the property is tendered, which price shall be posted on the bulletin board of the settlement room immediately after the close of the market. The first delivery of the notice shall not be later than 8:35 o'clock, and it shall be the duty of the party regularly holding such notice at 9:15 o'clock to present the same at the office of its issuer before 11:00 o'clock A. M. of the same day, together with a certified check on some Chicago bank, in good standing, or other satisfactory payment, for the net amount due for the property represented by said notice, as hereinbefore provided, and upon tendering said notice with payment at the office of the issuer, the holder of such notice shall be entitled to receive the property represented by the same.

M. In case property represented by either of the delivery notices mentioned in this section is not called and paid for as herein provided, it may be held by the issuer of the notice, for and at the expense for storage, interest, insurance, or other risk of the party whom it may concern, until 12 o'clock M. of the next business day, at which time it shall be sold in open market

for account of whom it may concern; or it may be sold, if the notice was delivered before 9:15 o'clock A. M., at any time between 12:30 o'clock P. M. of that day and 12 o'clock M. of the next business day. If the notice was delivered between 1:30 and 2 o'clock P. M., it may be sold at any time between the beginning of trading hours and 12 o'clock M. of the next business day. The party holding the property shall, however, notify the party to whom he delivered the original delivery notice, before 2 o'clock of the same day of the default, if the delivery notice was delivered before 9:15 o'clock A. M., or before 4 o'clock P. M., if the delivery notice was delivered between 1:30 o'clock and 2 o'clock P. M.—such notice of default to be in writing; and each purchaser receiving said notice of default shall in turn deliver the same, without delay, to the party to whom he passed the original notice of proposed delivery. All expense and risk of carrying property defaulted on, including a commission of one-quarter of one cent per bushel on grain, and one-quarter of one per cent. on the market value of provisions, shall be payable to the party required to make resale, by the party to whom he had the property sold, he to be reimbursed by the one to whom he delivered the notice of delivery, and so on until it is finally paid by the party in default. And in case of such default and resale of property, all differences shall be adjusted, as hereinbefore provided, on the basis of the price at which the property shall have been resold. All parties having property due them on time sales shall be present, or shall be represented by an authorized employe, in the Exchange hall, or such other place as may be designated by the Board of Directors, between the hours of 1:30 and 2 o'clock P. M. of each business day, and on days when the Board adjourns at 12 o'clock M., between the hours of 12:30 and 1:00 o'clock P. M., and on the first business day of each month between the hours of 8:30 and 9:15 o'clock A. M.; and admission to the Exchange hall, or such other place as may be designated by the Board of Directors, shall be denied all parties after 1:30, 12:30 or 8:30 o'clock, as the case may be. Any property which cannot be delivered owing to the absence of the buyer from the Exchange hall, or such other place as the Directors may have designated for the purpose of delivery, may be sold out by the party having same sold to such absentee, as hereinbefore provided in cases of default; all expenses and risk of carrying the property, commissions, etc., shall be paid by the absentee, the same as in case of default; *provided, however*, such property shall not be sold until the absentee has had notice in writing, either delivered to him in person, to his business representative, at his place of business, or left at the Secretary's office in case he has no regular place of business, that the property was ready for delivery under this Rule on his contract. In case it should appear on complaint duly made to the Board of Directors that any member has been guilty of issuing a notice of readiness to deliver property as herein provided, who had not the property mentioned in such notice in his control or possession at the time of issuing such notice, or, having issued such notice, shall thereafter dispose of the property, except as herein provided, or who refuses to deliver up such property when demanded, as provided for under this Rule, such party shall be deemed guilty of gross fraud, and shall be suspended or expelled from membership in this Association, under the provisions of Rule IV.

Deliveries when Board adjourns at 12 m.

Provided, however, that on all Saturdays when there is a regular business session of the Association, all deliveries shall be made in the Exchange hall; a morning delivery between the hours of 8:30 o'clock A. M. and 9:15 o'clock A. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified for similar deliveries after 11:00 o'clock A. M. The delivery notice shall be of the same form and character in all respects as that prescribed for deliveries between 1:30 and 2:00 o'clock P. M., except that it shall state the net value, deducting extra storage of the property at the closing market price on the immediately preceding business day, for the delivery on which the property is tendered, which price

shall be posted upon a suitably designated bulletin board immediately after the close of the market. The first delivery of the notice shall not be later than 8:35 o'clock A. M., and it shall be the duty of the party regularly holding such notice at 9:15 o'clock A. M. to present the same at the office of its issuer before 11:00 o'clock A. M. of the same day, together with certified check on some Chicago bank in good standing, or other satisfactory payment, for the net amount due for property represented by said notice, as hereinbefore provided; and upon tendering said notice with payment at the office of the issuer, the holder of such notice shall be entitled to receive the property represented by the same; and also, on such Saturdays, as fall on the last day of the month when there is a regular business session of this Association, an afternoon delivery between 12:30 and 1:00 o'clock P. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified in similar deliveries after 11:00 o'clock A. M.

The delivery notice shall be of the same form and character in all respects as that prescribed for deliveries after 11:00 o'clock A. M. The first delivery of the notice shall not be later than 12:35 o'clock P. M., and it shall be the duty of the party regularly holding such notice at 1:00 o'clock P. M. to present the same at the office of its issuer before 11:00 o'clock A. M. of the next following banking day, together with certified check on some Chicago bank in good standing, or other satisfactory payment, for the net face value of the property represented by said notice, without adding anything additional for interest or insurance, or without deducting any additional storage for the period between the time of delivery and the time of actual payment.

And provided further, that on the last business day of any month, when deliveries of articles mentioned in this Section are made after 11 o'clock A. M., the Secretary of the Board, or any person acting under his direction, shall have the power to extend the time for such deliveries from 2 o'clock p. m. (if on a Saturday, from 1 o'clock P. M.), as often and to such time during that day as in his judgment it may be necessary to enable all, who are prepared to do so, to tender or receive delivery notices. When any extension of time is made under this proviso, it shall be announced in the Exchange hall, or in such other place as may be designated by the Board of Directors for the purpose of making deliveries, on or before the expiration of the time hereinbefore stated for the termination of such deliveries; in the event of the extension of the time for deliveries as herein provided, wherever the time stated in this rule would be affected by such extension, such time shall in all cases be correspondingly extended.

It is the object and intent of this Section that all contracts for the purchase and for the sale of commodities mentioned therein shall be carried out in absolute good faith, it being expressly understood that in construing this Section its purely technical provisions—the principal purpose of which is to facilitate deliveries—must not be used as a pretext to evade the obligations of a contract. Any violation, however, of any of the provisions of this Section with intent to thwart or impede deliveries shall be deemed dishonorable conduct under the provisions of Section 9 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

The committee shall be authorized, in determining the correctness of any inspection they are called upon to revise, to adopt any measure they may deem necessary under the circumstances for the ascertainment of its true character. The committee shall be entitled to fees amounting to three dollars each for each case of reference decided by them, to be paid by the party against whom the decision shall be made.

SEC. 2. The Board of Directors will also appoint a suitable person as Chief Inspector of Provisions, who shall be required to give a bond in such amount as shall be fixed by the Board of Directors, conditioned for the faithful performance of his duties as prescribed by the Rules and Regulations of the Board of Trade of the City of Chicago, and the Regulations of the Board of Directors; which said bond shall be made to the Board of Trade of the City of Chicago, for the use and benefit of any parties having claims under the Rules and Regulations of the said Board of Trade for damages against said Chief Inspector on account of any of his official acts. EXTRACTS FROM THE RULES.

PRESCRIBED BY THE BOARD OF RAILROAD AND WAREHOUSE COMMISSIONERS FOR THE ADMINISTRATION OF THE DEPARTMENTS OF GRAIN INSPECTION AND WAREHOUSE REGISTRATION IN THE CITY OF CHICAGO, AND IN FORCE FROM AND AFTER DECEMBER 3, 1887.

“PLUGGED,” “LOADED” OR “SCOURED” GRAIN.

The said Chief Inspector, and all persons inspecting grain under his direction, shall in no case make the grade of the grain above that of the poorest quality found in any lot of grain inspected, when it has evidently been “plugged” or otherwise “improperly loaded” for the purpose of deception. Wheat which has been subjected to “scouring,” or to some process equivalent thereto, shall not be graded higher than No. 3.

RULES.

All grain in store in any warehouse of Class “A” at the time any amendment to the established rules of inspection (affecting such grain) may hereafter go into effect shall be inspected out (in satisfaction of warehouse receipts dated prior to that time only) in accordance with the rules as they stood prior to such amendment.

CLAIMS FOR DAMAGES.

No claim for damages on account of error in the inspection of any lot of grain (except grain inspected from public warehouses in accordance with law) will be entertained or allowed by the Board of Railroad and Warehouse Commissioners, unless complaint of such inspection shall be made to the Chief Inspector before the grain in question shall be removed from the car in which it is inspected, or before it shall leave the jurisdiction of the department.

Grain transferred from the car in which it was inspected to another must be inspected after transfer to entitle the owner to have any claim arising thereunder considered by the Board of Railroad and Warehouse Commissioners.

THE CHIEF INSPECTOR OF GRAIN

is hereby authorized to collect on all grain inspected under his direction as follows:

Failure to report for duty unless properly excused will be deemed a surrender of the position held by the absentee and no compensation will be allowed for days so absent.

RULE II.

Assistant Inspectors and Helpers are especially instructed to use all due care in cases where it becomes necessary to remove boards to obtain ingress into cars in order to properly inspect the grain in such cars, to replace all such boards removed in such a manner as to prevent leakage or waste of grain from cars. It will be the duty of all Inspectors to make a record of defective and leaky condition of cars and grain doors and to report the same to the Chief Grain Inspector on blanks especially prepared, showing the location of leakage and such other information as would be of service to the receiver and the shipper of grain.

- Damage to grain to be reported.** Fifth. The proprietors or managers of such warehouses shall promptly, by the proper publication, advise the trade and the public of any damage to grain or flax seed held in store by them, whenever such damage shall occur to an extent that will render them unwilling to purchase and withdraw from store, at their own cost, all such damaged grain.

REGULATIONS

GOVERNING THE

“Department of Grain Sampling and Seed Inspection.”

ADOPTED BY THE BOARD OF DIRECTORS OF THE BOARD OF TRADE
OF THE CITY OF CHICAGO.

First—The Board of Directors shall appoint a Committee of Five, members of the Board of Trade, who shall have and exercise general control over the Department under the conditions and provisions contained in Sections 1, 2 and 3 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

Second—This Committee shall appoint and fix the compensation of a Chief Grain Sampler, subject to the approval of the Board of Directors.

Third—The Chief Grain Sampler shall furnish a bond for the faithful performance of all and singular the duties of his office, said bond to be satisfactory in all respects to the Board of Directors.

Fourth—The Chief Sampler may employ such assistance as needed, when approved by the “Department of Grain Sampling and Seed Inspection,” and the Department will fix the compensation for such assistance.

Fifth—The Department shall make monthly reports of all receipts and expenditures. All expenses must be approved by the Board of Directors.

Sixth—The charge for services rendered by this Department shall be uniform to all persons, firms and corporations, and shall not be changed without proper notice being given of the proposed change, such notice to be posted in a conspicuous place in the Exchange Room of the Board. This Department may charge a higher rate in special cases outside of the Chicago district, but in no case can it make any reduction from the established rates.

Seventh—Nothing in the foregoing regulations shall prevent the buyer or seller, or his representative, from personally examining any car or cargo of grain bought or sold under the Rules of the Board of Trade of the City of Chicago, but under no circumstances can a Board of Trade official certificate be given by the party thus examining; any unofficial party, or his employer, inspecting any car or cargo of grain shall not have the right of appeal to the Grain Committee, unless the grain has been loaded under the supervision of the Official Sampler of this Department.

Eighth—The fees authorized to be collected by this Department for sampling grain shall be as follows:

Thirty (30) cents per carload for sampling grain.

Twenty-five (25) cents per 1000 bushels for sampling grain loaded into or unloaded from vessels.

Ninth—The Grain Committee shall arrange with the State Grain Inspection Department for the appointment of helpers whose duty it shall be to secure samples of every lot of grain graded by the Department in Chicago, as far as practicable, whether such grading be in or out of elevators or track arrivals. The same facility shall be accorded to such helpers for the purpose of examining and sampling grain loaded into vessels or cars at any private elevator or cleaning house by the proprietors of such houses and their employes, as is now accorded to regular State Inspectors.

Tenth—Such helpers shall be required to give bonds. They shall be subject to control and discharge by the State Grain Department, exactly as are the Deputy Inspectors. They shall be appointed on recommendation of the Grain Committee. Their salaries shall be paid by the State Grain Department with money furnished if necessary by the Board of Trade. When not actively engaged in duties described by the State Grain Department they shall be subject to control and direction of the Chief Sampler in such work as he may require.

Eleventh—It shall be the duty of such helper to bring the samples of graded grain, secured as above, to the Chief Sampler's office daily, for use in examinations by Supervising Inspectors, the Appeal Committee and the Official Sampler. The identity of such samples shall be known, however, only to the State Department and to the Official Sampler.

Twelfth—Such samples shall be kept on file in the Chief Sampler's office a reasonable time, labeled, however, by grades and numbers which shall indicate their identity only to the State Department and the Official Sampler, and thus unidentified they shall be accessible to the public.

Thirteenth—It shall be one of the duties of the Official Sampler to thoroughly examine these samples daily, and in case any of them indicate improper grading, he shall, in case the Chief Inspector, the Supervising Inspectors or the Appeal Committee have not already taken up such improper grading for correction, call their attention to same, explaining in what way the inspection has been too lenient or too rigid.

Fourteenth—In case the Official Sampler or any other party at interest, i. e., the buyer or the seller, should thus complain to the State Department and fail to have his complaint properly or favorably considered by the State Department, it shall be the duty of the Sampling or Grain Committee to listen to his complaint, and if it is in their judgment reasonable, the other parties at interest shall be notified, and the matter taken up by the Grain Committee with the State Department—all parties at interest being given an opportunity of being present at such hearing.

Fifteenth—In the examination of samples of grain inspected, a standard sample shall be used as a gauge, and in case of doubtful grain, which is very near the "line," a comparison shall be made with such standard sample, and in case of disputes calling for an appeal, final decision shall be rendered in accordance with such comparison.

Sixteenth—Standard samples above referred to shall be made up as early as possible at the beginning of each crop year, and approved by the State Inspection Department, Appeal and Sampling Committees and the Official Sampler—all working together to make up a fair and equitable standard.

Seventeenth—In cases where it is necessary for the Grain or Sampling Committee to take the question of moisture into account, rendering a chemical analysis necessary, this shall be made promptly.

Eighteenth—Nothing in the above shall be understood as giving the Grain Committee any privileges relative to the examination of samples or the knowledge of their identity other than those enjoyed by the public, excepting when complaint is made to them under the provisions of the above regulations, or when an appeal is taken as is provided in Section 17 of Rule 22, 2nd paragraph, in which case the examination shall be made at such time and place and after such notification as will give all parties at interest an opportunity of being present.

Nineteenth—In case it should not be feasible to obtain samples of track arrivals in the manner above outlined, owing to the volume of grain coming in, an arrangement may be made with Receivers' agents to work in conjunction with Inspectors to take an extra sample for file in the Chief Inspector's office as above outlined.

Regulations for the Weighing of Grain.

Adopted January 8, 1907.

Under and by virtue of the provisions of Section 2, Rule IV, of the Rules of the Board of Trade of the City of Chicago, enacted in pursuance of Section 10 of the Act to Incorporate the Board of Trade of the City of Chicago, the following regulations are adopted by the Directors of the said Board of Trade of the City of Chicago, for the guidance and information of the Weighing Department and the members of this Association.

REGULATION 1.

Received or transferred grain shall not be cleaned or blown before weighing, nor shall it be subjected to such handling as will cause loss in weight. This prohibition shall also apply to shipments after weighing.

REGULATION 2.

No dockage from actual weights shall be allowed on in-coming or out-going grain, except when unusual dirt or foreign matter is inseparably mixed with the grain, in which case it shall be the duty of the weighmaster or his deputy to determine the amount of unusual dirt or foreign matter, and to weigh the entire contents of the car. All allowances for unusual dirt or foreign matter shall appear on the face of certificate issued for such cars.

REGULATION 3.

All cars when unloaded must be thoroughly swept and cleaned, except in cases where cars contain foreign matter unsuitable for mixing with grain. Then it shall be the duty of the weighmaster or his deputy to determine the amount of grain and foreign matter to be left in the car. This amount shall be stated on the certificate of weights for each car, but such amount shall not be included in the net weight as shown by certificate.

REGULATION 4.

If hopper scales are used in determining the amount of grain a car contains, it shall be the duty of the elevator operators unloading such car to deliver to the scales the entire contents of said car except where cars contain unusual dirt or foreign matter not covered by Regulation 3, because not suitable for handling by elevator.

It shall be the additional duty of said elevator operator to clean thoroughly the unloading pits and the floor adjacent to such pits of any of the contents of said car that may have lodged there and deliver such contents to the scale to be weighed and credited to said car.

REGULATION 5.

The contents of each car shall be weighed in as few drafts as the scale in use will permit.

REGULATION 6.

The weighmaster and his deputies shall be allowed to handle the scale beams in the performance of their duties.

REGULATION 7.

Certificates of weight shall bear the date of weighing.

REGULATION 8.

No certificates of weights shall be issued on grain unloaded or transferred en route unless they are applied for within a reasonable time after cars are weighed, and before they have had time to arrive at their destination.

REGULATION 9.

A straight transfer must consist of the transferring of grain from one car to another without its identity being lost. If transferred through an elevator, the grain must go direct from the western or unloaded car to the scale and from the scale direct to the eastern, or car to be loaded without going into or through any house bins.

REGULATION 10.

All cars that are to be loaded with grain shall be in a suitable condition to carry such grain safely. In case cars are loaded that, in the judgment of the weighmaster or his deputies, are not in proper condition to carry grain safely, the parties loading such cars shall at once be notified, and a statement of the condition of the car shall appear on the face of the certificate of weight issued for such cars.

REGULATION 11.

The weighmaster in regulating the details of his office and the service of employees may, with the consent of the Weighing Committee, make such regulations as may be requisite or desirable in order to secure correct weights.
